BAL SABHA ACTIVITY

(A Practical Life Activity_ Water_Pouring)

DATE : 11/07/2019

CLASS : Pre-Primary-I

VENUE : Assembly ground

NATURE : Individual

Brief about the Activity :

There is a greater chance for error when pouring liquids. The Montessori Practical Life activities are graduated and isolated in difficulty. When transferring water from one container to another, kids begin with the largest motor skill to isolate. In this case, they begin by transferring water from one bowl to another using a sponge. The child concentrates on using whole arm and hand movements. Once that is mastered, the child moves on to pouring from one bucket to another using a mug, one pitcher to one glass, one pitcher to three glasses. Each activity introduces a new level of difficulty. Water pouring activity was organized for P.S. children . Each child enjoyed this experiential learning .

Learning outcome :-

- This activity builds **concentration**.
- Develops **mathematical mind**.
- This is **an indirect preparation** for **holding a pencil and writing**.
- **To** aware and equips them with basic **safety** knowledge and practical life understanding .
