

# Inter House Activity

**Name of the Activity: English Debate**

**Date: 04/10/19**

**Venue: Library**

**Topic: Students life and Mobile**

Information Technology has become inseparable part of our life and mobile phones have played a great role to make it easy for all. All age group of people are using mobiles now days. No doubt mobile phones and internet have made our life easy and comfortable but we should not forget about its darker side. So it increases the responsibility of school and parents to take care for their children and ensure the proper and right use of this powerful tool. Keeping this all in mind we conducted English debate on the use of Mobile phones in student's life. To conduct the activity we have selected two students from each house . As it is debate students prepared both the aspects of mobiles pros and cons.

They gave many examples about the benefits and harms of mobiles in a student's life. While the debate they did cross questioning and tried to make their part stronger. After the activity teachers explained well that how can we use this technology in the constructive way?

**Outcomes:**

Through this debate competition our students faced both the side of Mobiles and Internet. This debate provided them a chance to go through the pros and cons of mobiles so that they can learn the ways to use it for their betterment.
