REINFORCING THE NUMBER CONCEPT

"Numbers have life, they are just not symbols on paper" – Shakuntala Devi

My Number Garden

Help your child create his own number garden. This activity will enhance the number knowledge, eye hand coordination and correlation between symbol and quantity. Parents are requested to provide a sheet to the child with 5 circles and vertical lines drawn downward from each circle. Parents may help the child to paste numbers (from old calendar/newspaper) from 1 to 5 in each of the circles. Let the child make as many leaves around the vertical line as the number written on the circle using his/her finger print and green poster colour. Also the child is supposed to make petals using his/her finger print as per the number, e.g. for number 1, the child will make only 1 petal and so on. The child may use any of the Primary colours i.e. red, yellow or blue as per his/her choice. In the end the child will trace the numbers and count the leaves and petals of each flower to enhance and reinforce the association of symbol with quantity of numbers 1 to 5.

'HAPPY FATHER'S DAY'-21ST JUNE'

Father's Day-Photo Frame (Newspaper/Magazine Craft)

Photo-frame helps us to record precious memories of our loved ones.

Materials Required-

Cardboard box/Empty Cereal box, Fevicol, Colourful magazine papers/ newspaper

Instructions-

Take a cardboard or an empty cereal box. Cut out a frame which has a square hole as big as the size of a photograph from the box. Now you can use the newspaper/Colourful magazine papers and cover the borders of the frame by tearing it into pieces and pasting. You can make it more creative by pasting stickers or cut some coloured shapes. Paste your favourite picture with your dad and present it to your dotting father on Fathers Day.
